Together We Learn. Together We Heal

National Day for Truth & Reconciliation

September 30, 2024

In our past events we have been blessed to have local indigenous leaders share local stories. This year we look beyond our doorstep; we look to our Indigenous neighbours North of 60. Come and hear stories from people who have been there, who have seen firsthand how the high cost of food coupled with global warming are creating new and more intense challenges for the children and residents of these northern communities.
